CATALOGUE ESSAY

Featuring over 24.78 carats of custom cut emeralds, the Graff Emerald and Diamond Trilogy watch demonstrates the skill of Graff's master craftsmen at cutting and polishing bespoke stones. Each emerald is selected for its opulent hue and impeccable quality, it must share the precise shade as its neighbour to create a seamless stream of magnificent colour. This vibrant emerald green is expertly contrasted with a white diamond pave dial and a delicate line of diamonds upon the bracelet. This exquisite timepiece features 24.78 cts of the finest emeralds and 6.78 carats of white diamonds.
