- Skeletonized
- Power Reserve Display

CATALOGUE ESSAY

The year of the Water Tiger is embodied in an expressive version of the Perpetual Moon. Arnold & Son has fashioned a golden tiger, roaring and on the alert. In the background, a waterfall symbolises the element that tempers this feline's ferocious energy. The refinement of this decorative dial springs from consummate craftsmanship and the wide range of precious gemstones that Arnold & Son draws on. Rose gold and specular hematite, mother-of-pearl and aventurine interpret a highly symbolic scene on the watch. To celebrate the start of the new year in the traditional Chinese astrological calendar, Arnold & Son is releasing a limited edition comprising eight pieces of its high-precision phases of the moon model. The "Year of the Tiger" Perpetual Moon features a sculpted golden tiger against a backdrop in specular hematite, a rare and expressive stone.
