CATALOGUE ESSAY

This is a Swiss chronograph powered by an automatic movement. It includes 42 hours of power reserve, ensuring high-level precision. This timepiece contrasts an all-black design with rhodium-plated indexes coated with Superluminova and subtle orange detailing. This all black watch features two horizontal black snailed counters, a black All Road calfskin strap with orange rubberized lining, and a polished stainless steel crown and push buttons. The case is sandblasted stainless steel with black ADLC coating.
