CATALOGUE ESSAY

Blancpain Villeret Carrousel Répétition Minutes Chronographe Flyback, reference 2358 3631 55B. The watch features a 45 mm 18 carat rose gold & a White Enamel dial. The watch is fitted with an Alligator strap & a Pin Folding clasp. Having introduced a series of world firsts in its Carrousel Volant and Carrousel Minute Repeater models, the Manufacture Blancpain maintains its well-deserved status at the very peak of the watchmaking art, by becoming the first to associate these two horological complications with a flyback chronograph in a self-winding version. One-minute flying carrousel, Designed to counteract the perturbations induced by gravity on the accuracy of watches, the carrousel is a rare and fascinating complication. Blancpain has revived this device and incorporated it into a wristwatch for the first time.
