CATALOGUE ESSAY

The Artya Complications Purity Tourbillon Reference Tba. Features A Full Transparent Pure Sapphire Case With Anti-Reflective Treatment Case With A Hand Made Leather Strap With Artya Special Stitches. Sapphire Crown Fixed Bezel. Rose Gold Hands. The Artya Complications Purity Tourbillon Type Is Analog, Single Watch Face, There Are No Indices, Scales, Or Chapter Rings To Distract From The Spectacle Of Its Skeleton Movement, And While Reading The Time Might Be Difficult The End Result Of This Commitment To Aesthetics Is Stunning In Initial Images. The Narrow Skeletonized Black Mainplate And Bridges All Take The Form Of Concentric Circles, From The Outer Ring Attaching The Movement To The Case To The Miniature Layered Rings Supporting The Gear Train Hidden On The Caseback Side. This Circles-Within-Circles Look Leaves Wide Swaths Of Negative Space To Enhance The Movement's Floating Effect, While Drawing The Eye Organically To The Twin Mainspring Barrels At 2 O'clock And 4 O'clock Along With The 9 O'clock Tourbillon. These Three Elements Are Carefully Proportioned To Visually Counterweight One Another, Creating A Light And Finely Balanced Overall Appearance. The Tourbillon Itself Is A Massive 16.2Mm Across With A Brightly Polished Three-Pronged Skeleton Cage To Both Draw Attention And Allow A Clear View Of The Oscillation Below.. The Artya Complications Purity Tourbillon Is Powered By A82 Artya Automatic And Exclusive Aion Self-Winding Automatic Cosc Chronometer Certified Movement, Containing 00 Jewels, Biting At 28,000 Vph (4 Hz), And Has A Power Reserve Of Approximately 70 Hours. Scratch Resistant Sapphire Crystal. Screwed Open Full Sapphire Caseback. Round Case Shape, Case Size: 46 Mm, Case Thickness: 12,5 Mm. Rose Gold Clasp. Water Resistant At 3 Atm / 30 M / 03 Bar / 98 Ft. Functions: Hours, Minutes, Seconds, Tourbillon. Additional Info:
